

We are looking for a highly motivated and enthusiastic trainee research nurse to join our dedicated research team based at the West of Scotland Science Park Glasgow.

Intelligent Clinical ([www.intelligent-clinical.com](http://www.intelligent-clinical.com)) is an Independent Research Facility based in Glasgow that has a strong foundation within the research industry and a reputation of providing a high calibre of service to our clients. Within our research facility we conduct research on behalf of clients in the Pharmaceutical, Nutraceutical, Medical Device and Food Industry.

Applicants should be a Registered Nurse (preferably to degree level) with a minimum of 6 months clinical experience with no limitations to practice within the NMC (Adult) and have evidence of continuing professional development. Research experience although desirable is not essential as training will be given.

The role will include but is not limited to

- working alongside the wider research team to ensure the safe delivery of care for participants taking part in clinical trials,
- assisting in a variety of research activities including swab sampling, blood sampling and processing, ECG recording and collection of study specific information,
- assisting with the creation and maintenance of a high quality research environment,
- assisting with the assessment and monitoring of research participants in accordance with study protocols, company SOP's and policies.
- Keeping participants engaged with the study in order to optimise participant retention,
- Completing all necessary training / SOP's / policies including updates in a timely manner.

The successful candidate must be a good communicator, have excellent interpersonal and problem-solving skills and be able to work effectively as part of a team. Intelligent Clinical is dedicated to ensuring a high standard of care is received by all participants whilst delivering a high quality service to clients.
